RGBW Color Tunable LED Linear Luminaire — Wi-Fi Enabled

FEATURES

The **RGBW Ledge Series** features color tuning light engines which can be controlled via the **Wi-Fi OS or Android app**. Various modes allow the user to adjust the brightness of the illumination at a neutral white color temperature or the color hue in any combination of RGB with a possible 16 million color settings.

The ability to customize your lighting gives the user the flexibility to personalize their illumination scheme according to their desired configuration which is applicable for holidays, themed events, location specific environments, and many more applications.
